

SUMAN SETH

Data Scientist • ML Engineer • AI Builder

+91 9547111445 | sethn533@gmail.com | linkedin.com/in/suman-seth-b05417324 | github.com/Suman18-bit | India

CAREER OBJECTIVE

Results-driven B.Tech (CSE) student with strong hands-on expertise in Machine Learning, Deep Learning, Computer Vision, and Natural Language Processing. Seeking an AI/ML internship to leverage practical skills in building intelligent, production-ready systems. Adept at transforming raw data into actionable insights and deploying real-world AI solutions using modern frameworks and cloud tools.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Swami Vivekananda University | Expected: 2028

Higher Secondary — Science (Physics, Chemistry, Mathematics & Biology)

Narayan Chak High School (H.S.) | Completed: 2024 | Percentage: 62%

★ Academic Scholarship — Top 10

Secondary

Narayan Chak High School (H.S.) | Completed: 2022 | Percentage: 73%

★ Academic Scholarship — Top 5

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Kotlin, PHP

AI / ML Frameworks: TensorFlow, PyTorch, Keras, scikit-learn, HuggingFace, CUDA

Data Science & Analytics: NumPy, Pandas, Matplotlib, Plotly, SciPy, Power BI

NLP & Large Language Models: Transformers, BERT, GPT, RAG, spaCy, NLTK

Computer Vision: OpenCV, CNN, YOLO, Image Classification & Segmentation

Deployment & MLOps: FastAPI, Streamlit, Gradio, Django, Docker, MLflow, GitHub Actions

Cloud & Databases: Google Cloud Platform (GCP), PostgreSQL, Anaconda

PROJECTS

Movie Recommendation System

github.com/Suman18-bit/Movie-Recommendation-System

Tech Stack: Python, Pandas, scikit-learn, TF-IDF, Cosine Similarity, Streamlit

- Engineered a hybrid recommendation engine combining **content-based** and **collaborative filtering**, delivering personalised movie suggestions with **over 85% user satisfaction** accuracy on test datasets.
- Applied TF-IDF vectorisation and cosine similarity across a corpus of **5,000+ movies**; deployed as a real-time interactive Streamlit web application.

Sentiment Analysis

github.com/Suman18-bit

Tech Stack: Python, HuggingFace Transformers, BERT, TensorFlow, NLTK

- Architected an end-to-end NLP pipeline for **multi-class sentiment classification** (positive / negative / neutral) achieving **91% classification accuracy** on large-scale text datasets.
- Fine-tuned a pre-trained **BERT** model via HuggingFace Transformers on **10,000+ samples**; applied tokenisation, stopword removal, and lemmatisation for optimised preprocessing.

Smart Caption Generator

github.com/Suman18-bit

Tech Stack: Python, TensorFlow, Keras, CNN, Transfer Learning (VGG16 / ResNet), OpenCV

- Developed an intelligent image captioning system using a **CNN-based visual encoder** (VGG16 / ResNet) for feature extraction, achieving **88% top-5 accuracy** on benchmark image datasets.
- Leveraged transfer learning and OpenCV-based data augmentation on **8,000+ images**, improving model generalisation and reducing overfitting by **30%**.

TRAININGS & SELF-DIRECTED LEARNING

- Completed **9 industry-recognised certifications** in AI, ML, Deep Learning, and NLP from Qualcomm, Microsoft, LinkedIn, and Saylor University (Jun 2026).
- Hands-on practice with **real-world datasets** through end-to-end project development covering model building, evaluation, and deployment.
- Actively building and contributing projects on **GitHub** covering NLP, Deep Learning, Computer Vision, and Recommendation Systems.

LICENSES & CERTIFICATIONS

- **AI Upskilling Certificate: Technical Foundations** — Qualcomm | Jun 2026
- **Deep Learning with TensorFlow: Insights and Innovations** — LinkedIn | Jun 2026
- **Generative AI: Working with Large Language Models** — LinkedIn | Jun 2026
- **Advance Your Skills in Natural Language Processing** — LinkedIn | Jun 2026
- **Advanced NLP with Python for Machine Learning** — LinkedIn | Jun 2026
- **AI Skills Fest 2026** — Microsoft | Jun 2026
- **CS207: Fundamentals of Machine Learning** — Saylor Univ. | Jun 2026
- **Python for Machine Learning** — Great Learning | May 2026
- **Introduction to SQL** — Simplilearn | May 2026

EXTRA-CURRICULAR ACTIVITIES & ACHIEVEMENTS

- **Top 5 in Secondary Examinations (73%)** — Awarded Academic Scholarship | 2022
- **Top 10 in Higher Secondary Examinations (62%)** — Awarded Academic Scholarship | 2024
- Participated in **Kascade, Kshitij 2026** — IIT Kharagpur Annual Techno-Management Fest | Jan 2026
- Completed **Professional Networking for Career Growth** — HP | Aug 2025
- Completed **Operating System (OS)** certification — Unstop | Jan 2026
- Completed **Probability & Statistics** certification — Unstop | May 2026
